¹The Chartered Financial Analyst (CFA) charter is a globally respected, graduate-level investment credential established in 1962 and awarded by CFA Institute. To earn the CFA charter, candidates must: 1) pass three sequential, six-hour examinations; 2) have at least four years of qualified professional investment experience; 3) join CFA Institute as members; and 4) commit to abide by, and annually reaffirm, their adherence to the CFA Institute Code of Ethics and Standards of Professional Conduct.

ⁱⁱThe Investment Adviser Association (IAA) established the Chartered Investment Counselor (CIC) program in 1975, to recognize the qualifications of persons employed by IAA member firms whose primary duties are consistent with section 208(c) of the Investment Advisers Act of 1940 (pertaining to the use of the term "investment counsel"). A key educational component of the program is the requirement that candidates hold the CFA designation administered by the CFA Institute. In addition to successful completion of the CFA program, the CIC designation requires candidates to demonstrate significant experience in performing investment counseling and portfolio management responsibilities. At the time the charter is awarded, candidates must be employed by an IAA member firm, must provide work and character references, must endorse the IAA's *Standards of Practice*, and must provide professional ethical information.

ⁱⁱⁱAWMA® Professional Designation. The Accredited Wealth Management AdvisorSM is designed for advisors who want to better address the unique needs of high net worth clients. The program contains sections dedicated to behavioral finance, working with small business owners, and succession/exit planning. Included in the course is an entire module specifically dedicated to the fiduciary and regulatory issues facing advisors. Issuing Organization (College for Financial Planning) is accredited by U.S Department of Education Regional Accredited Agencies, The Higher Learning Commission (HLC): finra.org/investors/professional-designations/awma.

^{iv}FPQP™ Professional Designation. The Financial Paraplanner Qualified Professional™. Individuals who hold the FPQPTM designation have completed a course of study encompassing the financial planning process, the five disciplines of financial planning and general financial planning concepts, terminology and product categories at the College of Financial Planning. Additionally, individuals must pass an end-of-course examination that tests their ability to synthesize complex concepts and apply theoretical concepts to real-life situations. All designees have agreed to adhere to Standards of Professional Conduct and are subject to a disciplinary process. Designees renew their designation every two-years by completing 16 hours of continuing education, reaffirming adherence to the Standards of Professional Conduct and complying with self-disclosure requirements. ccfpdesignations.com/Designation/FPQP
